PREFACE.

The generous support extended to former numbers of this Catalogue has enabled us to materially increase the size and scope of the present edition. Numerous illustrations have been added, and the list of English and Roman coins made complete ; but while we have been to considerable expense in making these countries perfect, it must not be supposed that we **ALWAYS** have ALL the coins herein described in stock, but at the same time we use every exertion to keep a full line of all coins always on hand, and never have less than two thousand varieties in stock, including many not noted here, such as fine old European crowns, dated from 1500 to 1700. These we can supply at from \$3.50 to \$10.00 each, according to condition and variety. We also have large numbers of smaller coins of all dates.

Of American coins, we usually have a full stock, and are always prepared to purchase any of the following (other dates we do not want):

DOLLAR—1794, 1796, 1797, 1801, 1804, 1836, 1838, 1839, 1851, 1852, 1854, 1855, 1858.

HALF DOLLARS—1794, 1796, 1797, 1801, 1802, 1815, 1852, 1836, milled edge.

QUARTER DOLLARS—1796, 1804, 1823, 1827.

DIMES—1796, 1797, 1798, 1800, 1801, 1802, 1803, 1804, 1809, 1811, 1822.

HALF DIMES—1794, 1795, 1796, 1797, 1800, 1801, 1802, 1803, 1805, 1846.

And any colonial silver, paying for them according to condition and as this, we can *only determine by a personal inspection of the coins themselves, it will be impossible to set a price on any piece without seeing it.* To keep our correspondence within managable limits, we have been forced to make this rule absolute without any deviation whatever.

We shall always be pleased to give our patrons any information they may desire concerning any coins they may possess through the columns of the COIN COLLECTOR'S JOURNAL, if they will send on the coin or a GOOD rubbing of it to the editor in our care. Letters of inquiry MUST be written on paper seperate from that containing business communications. These rules are designed as much for the benefit of our correspondents as our own convenience, for without strict rules it would be impossible to answer every one of the two hundred letters or more received daily without mistakes or delay, a task which our perfect organization has allowed us to accomplish every twenty-four hours for the last ten years.

Gentlemen desiring to obtain a general knowledge of coins cannot do better than procure "**The Coinages of the World**," a work going very fully into the coinages of every country, and amply provided with fine engravings. It will be found advertised on another page.

Entered according to Act of Congress in the year 1879, by Scott & Company, in the office of the Librarian of Congress at Washington.

THE COIN COLLECTOR'S JOURNAL.

SPLENDIDLY ILLUSTRATED.

A 16-PAGE MONTHLY. \$1.00 PER YEAR. POST FREE.

In forwarding to our subscribers THE COIN COLLECTOR'S JOURNAL for January, 1878, at the commencement of the third volume, we would take the opportunity of thanking our patrons for past favors, and urge them to continued exertions to increase the circulation of the Journal. As it is the largest numismatic monthly published in the United States, and as it has now attained a more extensive circulation than any other paper devoted to the interests of coin collectors, we think it is for the interest and advantage of subscribers to do something to increase its influence.

We would remind our friends that by increasing the circulation of the Journal, the number of collectors will doubtless be much increased, and, as the number of coins is limited, the additional demand will greatly enhance the value of all collections.

The publishers have never expected to realize any profit from the subscription list; all that they hope for is to make the C. C. J. a self-sustaining means of communication for coin collectors, and therefore feel justified in looking to those benefited by it to do something to add to its usefulness in the future.

We give annexed a few reasons why every coin collector should become a subscriber:

For prices realized at every **Auction Sale of Coins** in the United States during the last two years—see *The Coin Collector's Journal*.

For good illustrated description of **Old English Silver Coin**—see *The Coin Collector's Journal*.

For fine illustrations of **Modern Foreign Copper Coins**—see *The Coin Collector's Journal*.

For a full history of the **Byzantine Coins**—see *The Coin Collector's Journal*.

For illustrated descriptive articles on **French Colonial Copper Coins**—see *The Coin Collector's Journal*.

For a full description of all **United States Fractional Currency**—see *The Coin Collector's Journal*.

For a complete chronological list of all the **Roman Emperors**—see *The Coin Collector's Journal*.

For a fine engraving of the magnificent **Canadian Confederation Medal**—see *The Coin Collector's Journal*.

For full description of all **United States Cents**, beautifully illustrated—see *The Coin Collector's Journal*.

For **anything and everything connected with Coin Collecting**—see *The Coin Collector's Journal*, and let the publishers see your dollars at once.

It is well filled with beautifully executed representative coins of every people, age and country, and is the only comprehensive book on the subject ever published. CRITIQUES.

The New York Times of December 27th, says:

"What every student of Coinages—not the mere collector of old coins—wants to know."

The New York World of November 27th, says:

"Welcome to all amateur and experienced numismatologists, to whom it will not only convey valuable information, but be useful as a work of reference."

The New York Evening Post of November 29th, says:

"A work of great interest to numismatists and collectors of coins. * * * * The text, which is full, is illustrated by several hundred engravings of the principal coins of all ages and countries."

The New York Daily Graphic of December 23d, says:

"Shows a great deal of special study and painstaking research. It is a monograph full of interesting and curious information, and besides its ample learning, gives several hundred engravings of the principal coins. The various appendices to the volume add materially to its convenience and value for reference."

The American Journal of Numismatics of January 1st, says:

"This is an octavo volume of 300 pages, with a large number of wood-cuts of examples of both ancient and modern coins. It has several appendices, giving lists of the French sovereigns, explanations of the abbreviations on Roman coins, a list of Roman families who have issued coins, and other matters of interest. The text is sufficiently elaborate to give the general reader a good idea of the subject, and to excite his interest in the science of numismatics. From the brief examination we have been able to give it, we judge it to be one of the most valuable and compendious books on coins, especially for those collectors who have not the time or inclination to consult the ponderous quartos of the old writers, which has yet appeared."

The Coin Collector's Journal of January 1st, says:

"This is decidedly the most important work on numismatics that has appeared during the past year, and will doubtless be the means of starting many new collections, as it is written in popular style, and occupies a field distinctly its own. The first chapter introduces us to the first coin, and we are gradually led from the coins of the Greek Island of Aegina, to those of Athens, Corinth and Macedonia; from Miletus and Ephesus to Egypt and Judea; from Graecia Magna to Rome, and so down through the Byzantine Empire to Mediaeval and modern Europe, including also Asia, Africa and America (the coins of our country and England being very fully described), giving fine engravings of all the principal types of each, till every coin-issuing State or Colony has been noticed; in fact, it is more than a coin book, it is a short history of the world, and should be in every house."

Without counting the endless pleasure to be derived from acting or witnessing the performance of Seltz's **American Boys' Theatre**, the fitting up, mounting and performing these plays will be found to give more pleasure and profit for the money than the same amount expended in any other way. All the marvelous scenic effects of the modern stage can be successfully imitated, by any boy of ordinary ability, on these miniature stages, by the exercise of a little study and patience. They have been proved of incalculable benefit in developing a boy's talent, in the various faculties called into play. His mechanical invention is brought out in constructing his theatre; his artistic genius is improved in carefully coloring the characters and scenery, and his elocution perfected in reading the speeches of the different actors.

Scott & Co. would caution the public against purchasing worthless imitations, as the Plays of Seltz's **AMERICAN Boys' THEATRE** are the only miniature theatricals ever published, giving full directions for working, &c. Every piece of this admirable series is put together and tested by professionals before being issued to the public, insuring the correct working of every piece.
